

ISWANTO SUCANDY, MD

**Associate Professor of Surgery
University of Central Florida
AdventHealth
Tampa, FL**

Dr. Sucandy is a world-renown HepatoPancreatoBiliary robotic surgeon who is a Professor of Surgery at the University of Central Florida. Dr. Sucandy completed his residency in General Surgery at Jefferson Health-Abington Hospital in Philadelphia. He continued to pursue his passion by completing a dual fellowship in Advanced Gastrointestinal/Minimally Invasive Surgery at Yale University, CT and HepatoPancreatoBiliary Surgery at the Starzl Liver Transplantation Institute at the University of Pittsburgh Medical Center, PA.

Dr. Sucandy has received numerous awards for his academic achievements and contributions to surgical societies. Dr. Sucandy is actively involved in regional, national and international HepatoPancreatoBiliary surgery societies as an officer, reviewer, course instructor, and expert panelist. This includes Society of American Gastrointestinal and Endoscopic Surgeons (SAGES), Americas HepatoPancreatoBiliary Association (AHPBA), International HepatoPancreatoBiliary Association (IHPBA), International Laparoscopic Liver Society (ILLS), Society of Surgery for Alimentary Tract (SSAT), and several others.

Dr. Sucandy is nationally involved in teaching other surgeons as the site host and course director of robotic hepatobiliary surgery. He is also a member of the development team for robotic liver surgery guidelines and other initiatives in expanding the application of robotic system in complex hepatobiliary surgery.

As an active contributor to the surgery literature, Dr. Sucandy has published almost 200 scientific peer-reviewed articles, 15 book chapters, and numerous surgical technique videos in the field of HepatoPancreatoBiliary and gastrointestinal surgery. Since 2016, Dr. Sucandy is leading the Robotic Hepatobiliary Program at AdventHealth Tampa and currently he is serving as the Division Chief for HepatoPancreatoBiliary Surgery.
